## 120-3 2-arm universal puller "VARIO" with spring-loaded end lock

#### APPLICATION IMAGE

## DETAIL IMAGE

#### DESCRIPTION

The 2-arm universal puller "VARIO" with spring-loaded drop safety device is used to pull off bearings, gears and washers in all common sizes for craftsmen, workshops and industry. It can be used to loosen any component that sits on a shaft and is freely accessible from the outside. Equipped with robust, always parallel puller legs, the puller ensures particularly safe, non-destructive dismantling for both external and internal pulling out. The drop guard prevents the puller legs from slipping off the crossbar.

### RANGE OF APPLICATION

For pulling off bearings, gear wheels and discs

#### BENEFIT

- Drop guard prevents the puller legs from slipping off the crossbar
- Pressing down the drop guard guarantees a particularly fast turning of the puller legs
- Application also with eccentric components due to free-moving trigger hooks sliding on the crosshead
- Variable adjustment to any span between xx xxx mm
- Safe positioning of the spindle due to rotatable spindle tip both on smooth surfaces and for centring (Switch Technology)
- Optionally convertible from an external extractor to an internal extractor by reversing the extractor legs
- Anti-slip device on the spindle head for safe working with spanners
- Spindle run-out to protect the thread

#### OPERATION

- Apply the puller leg to the part to be pulled off from the outside
- Push the claws under the part
- Pull the spindle manually to fix i
- Move the hexagon on the spindle head with a ratchet or a combination spanner until the component is released

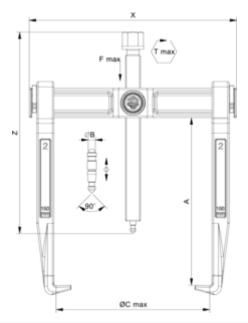

## MASTER DATA

GTIN	4021176918711
Country of origin	DE
Material	Tool steel
Series	120
Net weight [kg]	3,84 kg
Gross weight [kg]	
Package contents	1 piece
Packaging Act	PAP 21

#### SPARE PARTS

- 120-3-T
- 0-200-P\_2 Pulling legs (pair)
- 623230\_Mechanical pressure spindle

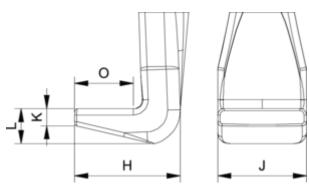

# 2-arm universal puller "VARIO" with spring-loaded end lock
